

# SAP on Azure Advanced Specialization

Partners who demonstrate deep knowledge, extensive experience, and proven success in implementing SAP on Azure solutions may seek the SAP on Azure Advanced Specialization.

An SAP on Azure Advanced Specialization allows partners with an active [Gold Cloud Platform Competency](#) to further differentiate their organizations, demonstrate their expertise, and build stronger connections with customers. Partners who earn an advanced specialization will have a customer-facing label displayed on their business profile and will be prioritized in customer searches in the [solution provider](#).

- An SAP on Azure Advanced Specialization assures potential customers that a partner meets the highest standards for service delivery and support, and increases partner visibility through prioritized ranking in searches and referrals via solution provider.

For those reasons, this opportunity is available only to partners who meet additional, stringent requirements.

[Learn more about advanced specializations.](#)

## What are the requirements?

1. Attain and maintain a Gold Cloud Platform Competency  
Visit the [competency page](#) for details on current competency requirements.
2. Meet additional requirements\*

Additional requirements*	Details
<p><b>Microsoft Azure certifications</b></p> <ul style="list-style-type: none"><li>• <a href="#">Exam AZ-300: Microsoft Azure Architect Technologies</a></li><li>• <a href="#">Exam AZ-301: Microsoft Azure Architect Design</a></li></ul> <p>We recommend the newest Azure exams listed here, but if you have professionals who completed <a href="#">Exam 70-533: Implementing Microsoft Azure Infrastructure Solutions</a> or <a href="#">Exam 70-535: Architecting Microsoft Azure Solutions</a> before they were retired on December 31, 2018, they will be valid until December 31, 2019.
