

The Benefits Of Microsoft Surface Devices For Education: Improved End User Productivity

Forrester's analysis of customer surveys and interviews found the following incremental end user productivity benefits from using Microsoft 365 for Education on Surface devices.

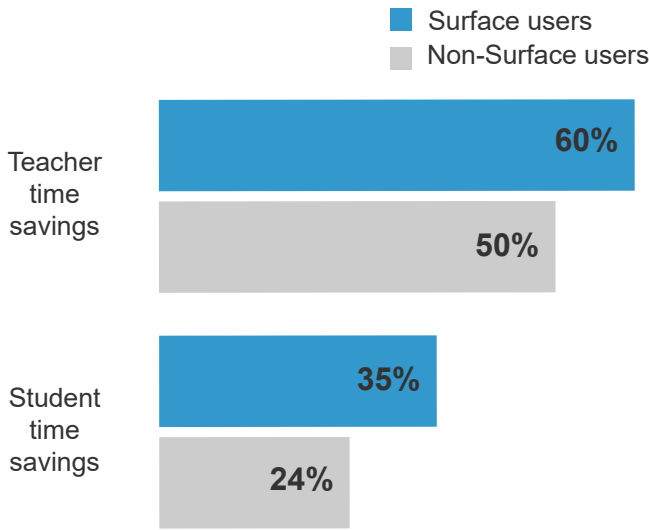

DEVICE AND INTERFACE FEATURES OF MICROSOFT SURFACE FOR EDUCATION DRIVES PRODUCTIVITY

"Because of the performance, inking, and screen resolution, things like grading time have been reduced. One of the English teachers told me that she was able to cover content in the first three weeks of school that would usually take five to six weeks."

Director of technology, private high school

INCREASED PRODUCTIVITY WITH MICROSOFT SURFACE FOR EDUCATION DEVICES

"Surface batteries last all day, which our previous devices did not do. Connectivity is better. This means less downtime trying to charge or connect their devices."

Director of technology, K-12 public school district

"Teachers are saving significant amounts of time on grading and administrative tasks...they say it is easier to sniff out plagiarism as well. In all, they are gaining back five to six hours per week."

Director of technology, private upper school
