

# BUSINESS APPLICATIONS:

Unlocking the next big CRM and ERP opportunity

## Businesses are competing on customer experience

Whether they know it or not, businesses need your help implementing Microsoft Dynamics 365 to outpace competitors in their markets.

Marketing

Sales

Customer Service

Field Service

Finance

Core HR

Commerce

Business Central

Dynamics 365 can improve every way a business has an impact on its customers with flexible, cloud-based solutions for Enterprise Resource Planning (ERP) and Customer Relationship Management (CRM).

## SELL ONE DYNAMICS 365 WORKLOAD AND YOU'LL BE PRIMED TO SELL ANOTHER

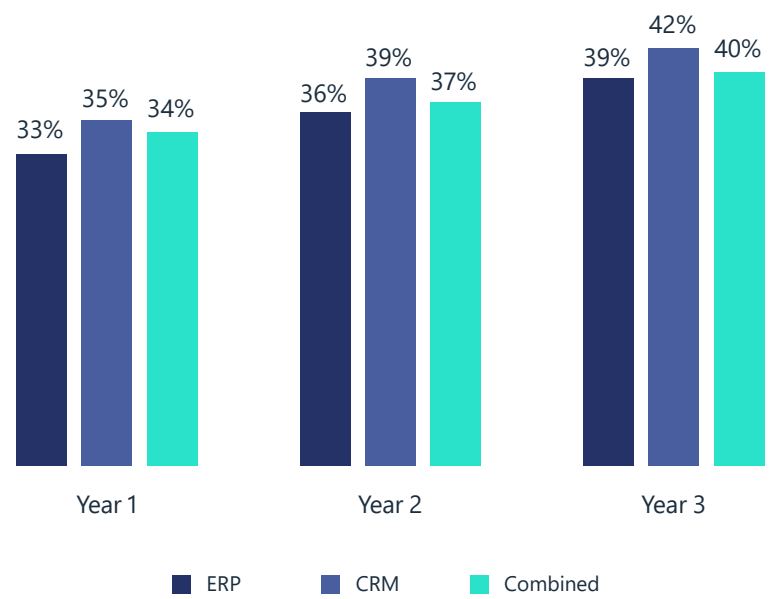

***“At least half of our customer base expands workloads after the first implementation project.”***

—Microsoft partner leveraging the modular nature of Microsoft Business Applications<sup>1</sup>

## The margins are great

Forrester says it takes only 15 months to break even after initial investment in a Dynamics 365 Business Applications practice.<sup>2</sup>

Gross profit margins (%) by solution area for system integrators<sup>3</sup>

Average forecasted customer engagement service revenue growth over the next 12 months<sup>4</sup>

Average forecasted unified operations service revenue growth over the next 12 months<sup>5</sup>

## The opportunity is growing

Microsoft partners who meet the rising demand for Dynamics 365 solutions predict tremendous revenue growth in the near future.
