

Transforming public service

Increasing demand on public services means that state and local government organizations are under pressure to be more efficient, effective, and responsive.

The needs of your public servants are changing as they address new requirements for citizen engagement. Modernizing your office technology can better position your organization to accommodate and optimize during normal and dynamic times.

While state and local governments are experiencing a transformative time, the fundamentals haven't changed. You need office technology that can stand up to high demands.

With the power of a laptop, the mobility of a 2-in-1, the convenience of digital note taking, and best-in-class security, public employees can be more efficient, effective, and responsive with a Microsoft Surface device.

"We're streamlining processes and procedures and the reason we've been able to do that is because of the Surface Pro."

Taylor

Built for the way you work

Surface devices are intuitive to use, powerful, efficient, and incredibly secure. And because they were designed for the software you trust, they offer a range of benefits for IT:

The best devices for the intelligent workplace

Allow people to do their best work from anywhere, with modern devices that let them connect, collaborate and communicate in new ways.

Leading modern management

Give users freedom but maintain control with Microsoft Endpoint Manager* and DFCL for complete and seamless device management.

Enterprise-grade security

Surface devices are equipped with TPM version 2.0, and feature Windows Hello biometric password-free sign-in.

A device for every role

Elected officials, legislative and judiciary staff

- Surface Pro 7 and Laptop 3 are light, stylish and versatile, adapting to the way you work, wherever that might be
- This mobile workstation connects to critical displays and peripherals through a single point of connection with Surface Dock*
- Capture notes in public forums and meetings with the Surface Pen*

Field workers, inspectors, police and fire

- Surface Go 2 lets you move seamlessly from the office to the field with the same, ultimate 2-in-1 device
- Surface devices are [safe to clean with approved disinfectant wipes](#)
- Get signatures on the spot with electronic signature integration
- Stay connected to mission-critical info with built-in LTE connectivity¹

Developers, data scientists, financial analysts

- Surface Laptop 3 is the right size for mobile working with 13.5" and 15" PixelSense™ display options
- Perform complex analysis with confidence on 10th-gen Intel® Core™ processor
- Use HD cameras and Dolby® Audio™ speakers to make remote meetings feel in-person

City planners, architects, illustrators

- Surface Book 3 facilitates fast visualizations and low render time for CAD/CAM apps with a 10th-gen Intel® quad-core processor on our most powerful Surface laptop yet
- For the ultimate graphic experience, Surface Studio 2 lets you visualize work in 4K detail with a 28" PixelSense™ display
