

A bold new take on Surface Pro

Introducing Surface Pro X for Federal

As versatile as you are

Microsoft Surface Pro X transforms from ultra-thin laptop to powerful tablet to portable studio. View your work seamlessly on a sleek, edge-to-edge 13-inch PixelSense™ display, enjoy up to 13 hours of battery life and work from anywhere with the blazing-fast LTE Advanced Pro connectivity. At just 7.3 millimeters, Surface Pro X is light and portable, and it works wherever you do. Multitask with more power than ever with the latest 10th Gen Intel® Core™ processor.

Stay connected, more safely

Modern connectivity allows you to work flexibly. Enjoy the ease of two versatile USB-C® ports, perfect for multitasking and card readers. Work more securely, authenticating to your network with either the FIPS 201 and TAA-compliant **IOGEAR Smart Card Reader Hub for Surface** or **Griffin Mobile Card Reader**. The IOGEAR Smart Card Reader Hub for Surface not only gives you a means for highly secure authentication but allows you to connect additional peripheral devices.

A Modern Device for Modern Deployment

Surface Pro X is the newest evolution in our tablet category designed to take full advantage of modern deployment, security, and mobility. By leveraging custom silicon co-developed by Microsoft and Qualcomm, the Pro X runs Windows on ARM is designed to be deployed via Windows Autopilot and managed via Microsoft Intune. **Legacy deployment technologies such as MDT and SCCM as well as organizations using a 'Gold Image' should plan to leverage Mobile Device Management.**

Work more securely, on your terms

Whether you need to physically disable cameras or just want to better secure all aspects of your corporate endpoints, **Surface Enterprise Management Mode (SEMM)** provides a scalable deployable utility to meet this need. Administrators can selectively choose to enable or disable hardware-based components, in addition to boot options, on a per-device basis—all secured via PKI.

Warranty Support you can Trust

Work without worries, knowing you can receive quick and reliable support through Microsoft's service partnership with ITG. Choose **3-year, 4-year, or 5-year onsite warranties w/Keep Your Hard Drive**, receive support by the next business day, and remain in full compliance with regulations.
