

# Meet the newest member of the Microsoft Surface Hub 2S Family

## Surface Hub 2S 85" for Federal

### Built for the needs of the hybrid workplace

At 77.4" in width, the Surface Hub 2S 85" provides over six feet of space edge to edge on an anti-glare 4K screen large enough to accommodate distancing participants with good viewing angles anywhere in the room. Use your own personal Surface Slim Pen on Surface Hub 2S if you choose and join a meeting from your personal PC or mobile through Proximity Join and Coordinated meetings through Microsoft Teams<sup>1</sup> to minimize physical contact when necessary.

### Windows 10 Pro and Enterprise on Surface Hub 2S 85"

Enterprise administration from standard Windows 10 tools like Microsoft Endpoint Manager—both SCCM and Intune—are enabled. High-standard, seamless security, with automated updates from the Windows 10 OS to the device firmware (UEFI), all from Windows Update for Business.

### Equipped for government use

Although Surface Hub 2S is designed as a multipurpose collaboration device used in conference rooms, the Surface Hub operating system actually supports users' ability to work with smart cards (CAC and PIV) to authenticate to corporate resources via the browser or the Office Graph. By taking advantage of plug-and-play devices and drivers, organizations can either leave a reader mounted to the device or add a keyboard with an integrated reader.

### Work more securely, on your terms

The **Surface Enterprise Management Mode (SEMM)** tool allows you to physically disable components, such as WiFi, Bluetooth and ports, providing better security and flexibility. Surface UEFI (BIOS) can be managed and locked by Surface Enterprise Management Mode, to prevent OS and device tampering.

## Support you can trust

Work without worries, knowing you can receive quick and reliable support through Microsoft's service partnership with ITG. Choose 3-year, 4-year, or 5-year onsite warranties w/Keep Your Hard Drive, receive support by the next business day, and remain in full compliance with regulations.

Surface Hub 2S 85" coming January 2021. Pre-release product shown; product and features subject to change and may vary by country/region. Products and features subject to regulatory certification/approval; actual sale and delivery is contingent on compliance with applicable requirements.

## Technical Specifications: Surface Hub 2S 85"
